Introducing the AirMedic MCS

with
EcoFlow™
 TECHNOLOGY

Featuring AllerAir's EcoFlow™ technology, the AirMedic MCS (Multiple Chemical Sensitivity) offers custom features that make this unit an ideal choice for the chemically sensitive or environmentally conscious.

AirMedic MCS with EcoFlow™ Technology

EcoFlow™ Features:

- All-metal housing
- Custom carbon blend*
- HEPA filter with a metal cap
- Organic-cotton pre-filter
- Inert gaskets
- 360° air intake
- Variable speed comfort controls
- Sealed motor
- Eco-safe, waters-soluble AFM bonding
- Powder-coated, refillable carbon canister
- Shielded cable to reduce EMF
- Exceptional particle filtration certified by an independent DOP test
