

# *Inside MCS America*

**Get  
involved,  
learn,  
share,  
and  
meet  
others!**

MCS America has a new public listserve that anyone is welcome to join without an application. The focus and operation of this list will be different than our other groups. A description of each is provided below. You are invited to join one or more applicable listserves.

## **MCSA-Public**

Open to the general public to discuss MCS in general as well as support, ideas, information, announcements, and/or to share personal activism. This is in contrast to the MCS America Members group where discussion of collaborative activist efforts and internal MCS America efforts will remain. No application is required.

Send an email to:

[MCSA-Public-subscribe@yahoogroups.com](mailto:MCSA-Public-subscribe@yahoogroups.com)

or subscribe at:

<http://health.groups.yahoo.com/group/mcsa-public/>

## **MCS America Members Support**

This group also fulfills the function of discussing support, ideas, information, announcements, and/or sharing personal activism like the MCSA-Public group, only with a closed membership that requires a membership application. This group also has the added benefit of being a place where individuals and other organizations and activists can engage in collaborative efforts with MCS America and being a recipient to all the news feeds (see MCSA Feeds below). Members of this group are considered associate members of MCS America. Members do not operate MCS America in any way, but rather collaborate with the organization and are privy to some internal operations, activities, and events.

Subscribe/Apply at:

<http://health.groups.yahoo.com/group/mcs-america-members-support>

## **MCSA Feeds**

The purpose of this public access group is to receive daily distribution of news and research studies on multiple chemical sensitivity, chemical injury, environmental concerns, and other related environmental illnesses and disorders. Anyone can join without an application. Only the moderator posts to this group. This is not a discussion group. This group distributes about 15 articles on average each day.

Send an email to:

one or  
more  
groups!**

### **MCSA Safer Salvage and Share**

MCS Salvage and Share is a public access group similar to Freecycle, except it's a free recycling program for safer reusable's geared towards individuals with MCS, CFS, FM, and other related disabilities correlated with the environment. The purpose of this program is to find, give, and recycle needed "safe" or "safer" items. All items are exchanged for free. Shipping cost are arranged between donor and recipient. Anyone can join without an application.

Send an email to:
