PROCLAMATION

Electromagnetic Hypersensitivity Awareness Month

September, 2009

- Whereas: People of all ages in St. John's and throughout the world have developed the illness of Electromagnetic Hypersensitivity (EMHS) as a result of global electromagnetic pollution; and,*
- Whereas: Electromagnetic Hypersensitivity is a painful chronic illness of hypersensitive reactions to electromagnetic radiations for which there is no know cure; and,*
- Whereas: The symptoms of Electromagnetic Hypersensitivity include dermal changes, acute numbness and tingling, dermatitis, flushing, headaches, arrhythmia, muscular weakness, tinnitus, malaise, gastric problems, nausea, visual disturbances, severe neurological respiratory, speech problems, and numerous other physiological symptoms and often can develop into Multiple Chemical Sensitivity (MCS); and,*
- Whereas: Electromagnetic Hypersensitivity is recognized by the Canadian Human Rights Commission, The Canadian Government as an Environmental Sensitivity, the Americans with Disabilities Act, and many other national and international commissions; and,*
- Whereas: this illness may be preventable through the reduction or avoidance of electromagnetic radiation in both indoor and outdoor environments and by further medical research:*

Now

Therefore I, Dennis O'Keefe, Mayor of the City of St. John's, hereby proclaim the month of September 2009 as:

Electromagnetic Hypersensitivity Awareness Month

Signed at City Hall, St. John's, Newfoundland this 24th day of August 2009.

Dennis O'Keefe
